

Gun Safety Rules

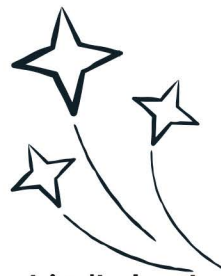

- 1 Keep your gun pointed in a safe direction even when it is unloaded.
- 2 Be sure of your target; know what is in front of and behind it.
- 3 Don't run, jump or climb with a gun.
- 4 Do not put your finger on the trigger until you are ready to shoot.
- 5 Keep your gun unloaded until ready to use.

GOA
Second Amendment
HUNTERS

What Is the Second Amendment?

"A well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms, shall not be infringed."

1

As an American citizen, you have the Right to own and use firearms.

The men who set up our country put these rules in the United States Constitution because our rights come from God and can not be taken away by governments.

2

The Government Can Not Infringe on that Right.

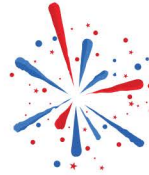

The Government can not make laws or take actions that oppose the Second Amendment.

Why Is It Important?

It allows Americans to protect their lives, their property, and their liberty.

A free country can exist only if the people are truly free and able to keep the government from taking their rights and freedoms.
